Dysport[®] Double Take Consumer Terms & Conditions

This offer is limited to adult patients who receive a *Dysport*[®] treatment in accordance with the product's FDA-approved indication and labeling. Both you and your healthcare provider must be members of the ASPIRE Galderma Rewards program. This is a limited quantity offer subject to availability from Galderma and your participating healthcare provider. If you have questions about this offer, please call 1-844-5ASPIRE.

To participate in this offer, you must receive a *Dysport* treatment from a participating healthcare provider during at least one of the following time periods: (i) April 15, 2019 to July 26, 2019 (Phase I) and/or (ii) August 19, 2019 to November 17, 2019 (Phase II), and your healthcare provider must submit a valid \$50 *Dysport* treatment certificate coupon code to the ASPIRE Galderma Rewards program on your behalf at the time of your treatment. If you receive two *Dysport* treatments, there must be at least ninety (90) days between treatments. Phase I coupon codes shall expire sixty (60) days from the date issued to the healthcare provider. Phase II coupon codes shall expire ninety (90) days from the date issued to the healthcare provider.

You are eligible for this offer only if you pay for your entire treatment yourself and if no part of your treatment is covered by insurance or any other third party payor. This offer excludes any treatment using a Galderma product that is reimbursed by Medicaid, Medicare, or any other federal or state benefit programs, including state medical assistance programs. You are not eligible for this offer if your private insurance, HMO, or any other health benefit program pays for all or part of their treatment. If any form of reimbursement is sought from a third-party, you may be required to disclose the value of the coupon code to that party. This offer is not available to patients who are Galderma employees or their spouses.

This offer is non-transferrable and available and valid only from participating healthcare providers. All treatment certificate coupon codes must be submitted by the treating provider via www.aspirehcp.com. Galderma will reimburse the provider for the face value of used coupon codes, provided that the provider and patient have complied with these terms and conditions. Individual treatment certificate coupon codes are valid for one-time use. This offer is limited to two (2) treatment certificate coupon codes per patient. Promotion treatment certificate coupon codes cannot be combined with any other offer or promotion except treatment certificates created by the patient through the redemption of ASPIRE Galderma Rewards program points. Treatment certificate coupon codes have no cash value without simultaneous purchase of a *Dysport* treatment, and are void if sold, transferred or exchanged. Offer valid only in the U.S., excluding territories, and void where prohibited, taxed or otherwise restricted by law.

By participating in this offer, you agree to all of the terms and conditions of this offer. Galderma reserves the right to cancel or modify this offer without notice. Galderma assumes no responsibility for lost, late, incomplete, or incorrect submissions that fail to be properly entered and submitted to www.aspirehcp.com for any reason. Treatment certificate coupon codes will be processed and reimbursed in U.S. dollars only.

Dysport is a prescription injection for temporary improvement in the look of moderate to severe frown lines between the eyebrows (glabellar lines) in adults less than 65 years of age.

Important Safety Information

What is the most important information you should know about *Dysport*? Spread of Toxin Effects: In some cases, the effects of *Dysport* and all botulinum toxin products may affect areas of the body away from the injection site. Symptoms can happen hours to weeks after injection and may include swallowing and breathing problems, loss of strength and muscle weakness all over the body, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice, trouble saying words clearly, or loss of bladder control. Swallowing and breathing problems can be life threatening and there have been reports of death. You are at the highest risk if these problems are pre-existing before injection.

These effects could make it unsafe for you to drive a car, operate machinery, or do other dangerous activities.

Do not have *Dysport* treatment if you: are allergic to *Dysport* or any of its ingredients (see the end of the Medication Guide for a list of ingredients), are allergic to cow's milk protein, had an allergic reaction to any other botulinum toxin product, such as Myobloc®, Botox®, or Xeomin®, have a skin infection at the planned injection site, under 18 years of age, or are pregnant or breastfeeding.

The dose of *Dysport* is not the same as the dose of any other botulinum toxin product and cannot be compared to the dose of any other product you may have used.

Tell your doctor about any swallowing or breathing difficulties and all your muscle or nerve conditions such as amyotrophic lateral sclerosis [ALS or Lou Gehrig's disease], myasthenia gravis, or Lambert-Eaton syndrome, which may increase the risk of serious side effects including difficulty swallowing and difficulty breathing.

Tell your doctor about all of your medical conditions, including if you have surgical changes to your face, very weak muscles in the treatment area, any abnormal facial change, injection site inflammation, droopy eyelids or sagging eyelid folds, deep facial scars, thick oily skin, wrinkles that can't be smoothed by spreading them apart, or if you are pregnant or breastfeeding or planning to become pregnant or breastfeed.

Tell your doctor about all the medicines you take, including prescription and nonprescription medicines, vitamins and herbal and other natural products. Using *Dysport* with certain other medicines may cause serious side effects. **Do not start any new medicines while taking *Dysport* without talking to your doctor first.**

Especially tell your doctor if you: have received any other botulinum toxin product, such as Myobloc® (rimabotulinumtoxinB), Botox® (onabotulinumtoxinA), or Xeomin® (incobotulinumtoxinA), in the last four months or any in the past (be sure your doctor knows exactly which product you received, have recently received an antibiotic by injection, take muscle relaxants, take an allergy or cold medicine, or take a sleep medicine.

Common Side Effects

The most common side effects are nose and throat irritation, headache, injection site pain, injection site skin reaction, upper respiratory tract infection, eyelid swelling, eyelid drooping, sinus inflammation, and nausea.

Ask your doctor if *Dysport* is right for you.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
